EDUCATION

Brown University, Sc.B. in Computer Science & Economics, *4.0/4.0 GPA* Providence, RI | **Expected Graduation May 2029**

- Relevant Courses: Accelerated Intro to CS, Linear Algebra, Engineering, Management of Organizations
- Activities: Brown Entrepreneurship Club, Brown Robotics Club, Innovation Dojo, Hellenic Student Association

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C, C++, R, Java

Frameworks, Databases & Tools: Node.js, React, Express, PostgreSQL, MongoDB, Bootstrap, AWS, n8n

Machine Learning: Model training & fine-tuning, mathematical modeling, PyTorch, Hugging Face, OpenCV, Pandas, LangChain

RESEARCH EXPERIENCE

VLA Model Data Labeling Research | Lead Researcher Providence, USA | Dec 2025 – Present

- Researching scalable data labeling and curation strategies for training vision-language-action (VLA) models in robotics applications, with a focus on deployment and venture opportunities
- Formed and led a 7-member interdisciplinary team spanning linguistics, psychology, and computer science to study multimodal data for emotion-aware humanoid robots; received grant from Brown Data Science Institute to conduct research

Niki the Humanoid Robot | Creator, Lead Researcher | [GitHub](#) Athens, Greece | Jan 2020 – Aug 2025

- Created [Niki](#), a humanoid robot capable of performing various tasks using natural language processing, computer vision, speech recognition, IoT, robotics; fully 3D-printed
- Trained a custom face-recognition neural network; integrated ChatGPT API with prompt engineering & Retrieval Augmented Generation (RAG) for personality/knowledge base; programmed Arduino & ESP32 in C++ for motor & hardware control
- Niki was nicknamed the “first AI humanoid robot in Greece” by national TV
- Presented at MIT Technology Review’s 2025 [EmTech Conference](#) on youth and the future of technology with AI

AI Algorithmic Design (HarvardX) | Student Researcher | [GitHub](#) Athens, Greece | Jun 2023 – Aug 2024

- Detected breast cancer from biopsy samples using principal component analysis and an ensemble of AI models
- Built a movie recommendation model using statistical modeling, regularization, and matrix factorization

WORK EXPERIENCE

Council of Europe, Committee on AI | Advisor, Intern Strasbourg, France | Aug 2023 – Sep 2023

- Advised the Committee on Artificial Intelligence and the Committee on Legal Affairs & Human Rights on AI policies, promoting ethical principles without hindering innovation
- Contributed to the Convention on Artificial Intelligence, Human Rights, Democracy, and the Rule of Law by providing insights on ethical AI development and strategies to address job displacement through European education programs

Intracom Telecom | Machine Learning & Robotics Intern Athens, Greece | Jun 2023 – Jul 2023

- Developed a full-stack IoT automation platform for smart home lighting systems using React, JavaScript, and PostgreSQL
- Retrained an object detection model for robotic applications in factory environments, integrated it with hardware, and contributed to building a production line for robotic metal sheet shaping and placement

Cosmote | Natural Language Processing & Project Management Intern Athens, Greece | Jun 2022 – Jul 2022

- Built an NLP model to analyze customer feedback in Greek and detect satisfaction levels supporting Business Intelligence
- Applied end-to-end product development (Agile/Waterfall); secured €4,000 in sponsorship for my teams

LEADERSHIP EXPERIENCE

AI Agent Consulting | Co-founder Providence, USA | Jan 2026 – Present

- Creating AI agents for SMBs using LangChain and n8n to automate end-to-end operations including email triage, order & invoice processing, Excel data entry, and booking/reservation workflows; deploying on AWS
- Building a full-stack MVP web app using Python, React, and Node.js that analyzes user work patterns to auto-generate and suggest agentic workflows

Brown Entrepreneurship | Member, Winner Providence, USA | Sep 2025 – Present

- Selected as one of 20 students from Brown to join Innovation Dojo, a startup accelerator program going through the full venture-building process
- Placed 1st at the final competition pitching an AI-powered grading & feedback platform for educators

AI & Ethics in Education | Founder, President Athens, Greece | Jan 2020 – Aug 2025

- Launched an AI & Ethics program (AI Labs + curriculum handbook) reaching 12,000 students in Greek public schools
- Collaborated with World Human Forum & NCSR Demokritos; presented at Council of Europe’s 2023 Spring Plenary Session

Dynamic Innovations & Green Team | Founder, President | [GitHub](#) | [GitHub](#) Athens, Greece | Sep 2015 – Aug 2025

- Dynamic Innovations (23-member team): Raised €8,000; built SmartSort, an AI recycling bin (custom NN & CAD hardware) that won the ACSTAC AI & IoT award; developed face-tracking & ChatGPT conversational system later integrated into Niki
- Green Team (21-member team): Raised €10,000 to engineer two 4x4 ft Sustainable & Smart City models (AI, IoT, renewable energy); won ACSTAC AI & Sustainability award; published [article](#) and partnered with local municipalities
